How to Calculate Number of Employees:

Number of employees is calculated by the number hours paid to employees during the year. Total hours paid out over one year divided by 52, divided by 40, equals the number of employees.

First Time Membership Incentive:

As an incentive to first time memberships, a one-time introductory dues rate reduction of 25% will be given. A returning membership is not eligible for a first time membership incentive. An existing member who opens a new membership for a business that has never before held a Chamber membership is eligible for the incentive for that new membership, but not for his or her existing membership(s).

****Biannual Rate Increase of 5%:**

Starting in 2011, a five percent increase to all dues rates occurred, and will recur every other year thereafter.

***Next increase will be 2018.**
